Trittligasse 12

8001 Zurich

Switzerland

+ 41 43 488 46 16

User Stories:

5617 - As a user I want latest content to show up on the mosaic as soon as it is created

6645 - As as user I want to be able to tag content by using hashtags in text (Companies and their sub-content)

6758 - Change the order of the years on the date filter in events list to show future years BELOW current year

6811 - As a user I want to see what is embeded when editing content

7042 - As Elizabeth I want to be able to remove a member from my community/network and all groups (Bonus feature)

7085 - As Elizabeth, I want to be able to moderate membership on my instance (Bonus feature)

7128 - As a team we want to disable Companies feature for Groups

7140 - Remove pagination from the mosaic

7149 - As Elizabeth I want to moderate additional content types

7219 - Douglas wants to copy/paste images in wisiwig fields

7256 - As a team we want to improve the UX of our platform on mobile

7424 - As a team we want Blogs creation button "Publish" to rename into "Submit"

7479 - Allow all roles to add to view counter

7487 - As a team we want to fix Editing Content connected to User that is not member of Instance

7524 - As a developer, I want create and edit article controllers merged into one controller

7583 - As a user, I want comments and other inline fields to look nice on mobile screens

7594 - As a team we want to update our version of the Google Maps API

7604 - As a team, we want to remove all auto-tag and ES weight tag functionality and data

7712 - As a User i want to convert documents when editing

7713 - As a user I want to be able to import word documents into Blogs

7715 - Un merge taxonomy filter

Bugs:

7548 - Allow delete/edit content if user doesn't exist on instance

5382 - Empty instance picker when user is only member of network

6096 - Comments are not detecting hypelinks if line break is not present

6674 - Event (Total) Likes dropdown menu is inconsistent with rest of the informative dropdown menus

7210 - Member created a company even if the feature Company is turned off

7227 - content i am following not being marked as "following"

7307 - Similar Question Widget Not Displaying Number of Replies

7340 - widget panel not saving changes when using drag-and-drop to order widgets

7363 - Groups: Manage: It's not possible to remove category

7456 - View all button on Create Article widget should be present only if 3+ articles are being in process of importing

7459 - Processing icon in Crete Article widget is larger than in the modal, inconsistency issue

7461 - Endorsements list link doesn't work

7476 - When user is not member of any instance, he is not able to join any instance

7489 - Import doc - Article details are removed after import has finished

7494 - Images on list page should fit within 225 x 150 container

7500 - Url doesn't change if transition to state is from modal

7505 - Hide to background option discard every change made after file import started in Article

7507 - Discard word document import while prcessing will return file import error on Article modal

7508 - Import Document never finish Processing if it is opened from background jobs list page while import

7515 - Moderated content message is not as in sugested (and approved?) solution

7533 - Text is not wraping around cover image on list pages

7534 - Notification links for Recommendations are taking User on Home page

7537 - Embeded content issues on Articles when removing/editing

7540 - PATCH /api/widgetblocks/reorder not working

7545 - Embedded content is sending duplicated request if pasting URL and clicking on Preview button

7547 - Add location button show Basic info tab in Edit profile modal, not Contact info

7549 - Text should have some padding space from cover image container on Articles

7555 - Permission issues with Instance/Group that has closed membership

7584 - PUT /api/widgets/{eid} reorders widgetblock

7648 - Under some circumstances the registration confirmation token is not valid

7654 - Company Basic Info UI issues
